

RhySearch is the leading Research and Innovation Center in Switzerland in the fields of High and Ultra-precision Manufacturing and Optical Coating. With our equipment, as well as our specialized measurement technology, we are unique in Switzerland. RhySearch is a public-law company based in Buchs SG. For the Ultra-Precision Manufacturing Lab, we are looking for a

Project Manager Laser Micro-Machining

This person should complement our team with his or her experience, knowledge and passion.

- The main tasks are the design and execution of research projects in the field of laser micro-machining, as well as the active acquisition and conception of new, innovative projects;
- You bring your network and experience from the scientific environment and enjoy working with industrial partners to understand their challenges and requirements and translate them into creative solutions or new applications;
- You are familiar with current developments in laser micro-machining and know current trends. You enjoy presenting your own results in scientific publications and at conferences.

You enjoy working in a team and are motivated to actively build and develop the future of our Ultra-Precision Manufacturing Lab with us. You have successfully completed a technical degree, preferably in mechanical engineering, materials science, physics or a related field, and have a strong understanding of laser processes and its applications. You like to engage with people and enjoy working with a variety of different personalities and organizations.

Basic knowledge of German or willingness to learn in order to integrate well in the region and at work is appreciated.

Your application

If you are interested and see yourself and your skills as part of our team, please send your application in electronic form to Danijela Djordjevic, Head of Finance and Human Resource (danijela.djordjevic@rhysearch.ch). Dr. Thomas Liebrich, Head of our Ultra-Precision Manufacturing Lab, will be happy to answer your questions by phone (+41 81 755 49 62) or by mail to thomas.liebrich@rhysearch.ch.
